Real Algebraic Geometry and Model Theory

Monday – F426

- Françoise Point, Université de Mons, Université Paris-Diderot

  TBA

- Nikolaas Verhulst, TU Dresden

  Generalizing a result of Shtipel'man

- Andre Opris, Universität Passau

  Tamm's Theorem for log-analytic functions

- Mickaël Matusinski, Institut de Mathématiques de Bordeaux

  Omega-fields and exponentiation

- Christoph Schulze, Universität Konstanz

  Cones of non-negative Polynomials
