

Donau–Rhein Modelltheorie und Anwendungen

Announcement

Friday, 24 January 2020, Universität Konstanz, Room F426

On 24 January 2020 the Model Theory Working Group and the Research Group in Real Algebraic Geometry of Universität Konstanz will be hosting the 5th meeting of the conference Donau–Rhein Modelltheorie und Anwendungen (Danube–Rhine Model Theory and Applications). Taking place once to twice per year at changing places, the DRMTA gives a joint institution for the researchers in model theory and its applications from the upper German language area. Talks are delivered by international guests and young scientists. The participation is open to anyone and free of charge.

Speakers:

Arthur Forey (ETH Zürich)
Lothar Sebastian Krapp (Universität Konstanz)
Simon Müller (Universität Konstanz)
Daniel Palacín (Albert-Ludwigs-Universität Freiburg)
Harry Schmidt (Universität Basel)

Organisers:

Philipp Habegger (Universität Basel)
Tobias Kaiser (Universität Passau)
Salma Kuhlmann (Universität Konstanz)
Amador Martin-Pizarro (Albert-Ludwigs-Universität Freiburg)

Local Organisers:

Salma Kuhlmann (Universität Konstanz)
Lothar Sebastian Krapp (Universität Konstanz)
