wird am

Donnerstag, dem 22. November 2012,

folgender Vortrag gehalten:

Dipl. Math. Patrick Kurth (Universität Konstanz):
"Well-posedness and asymptotic behavior for certain partial integro-differential equations"

Zeit: 15:15 Uhr

Raum: F 426

Interessenten sind herzlich willkommen!

R. Denk, M. Dreher, R. Racke, O. Schnürer

Abstract: We consider partial integro-differential equations that are characterized by non-linear memory-convolution-terms with kernels that depend on the solution of these equations. We will extend the known results on well-posedness and asymptotic behavior for equations with only time-dependent kernels to equations with additionally space-dependent kernels.

(invited by Prof. Dr. Reinhard Racke)
