

The University of Constance is one of the eleven Universities of Excellence in the Federal Republic of Germany.

At the Department of Mathematics and Statistics at the University of Constance, the Group in Differential Geometry is offering a temporary

**Position in Geometric Analysis**  
(salary scale TV-L 13 / 50% or 100%).

The position is starting on 01.04.2019 or later and for a period of up to two years.

The research in our group is in the field of geometric analysis. Analytic methods are used to address questions in differential geometry. For example, we study the long-time behaviour or the formation of singularities for solutions to flow equations like mean curvature flow, Gauß curvature flow or Ricci flow. We welcome applications from candidates who are interested in any related area of geometric analysis.

The teaching duty is 4 hours per week. The language in courses and tutorials for Bachelor students is German. Applicants who are not fluent in German shall address how they plan to organise that.

The University of Constance is an equal opportunity employer and tries to increase the number of women in research and teaching.

The University of Constance has been certified by the Hertie Foundation to be a family-friendly institution. The University is committed to further the compatibility of work and family life.

The University of Constance encourages disabled persons to apply. They will be given preference if appropriately qualified (contact +49 7531 88 4895).

For further information, please contact Oliver Schnürer (+49 7531 88 2584).

Please send your applications to

Prof. Dr. Oliver Schnürer  
Universität Konstanz  
Fachbereich Mathematik und Statistik  
Universitätsstr. 10  
78457 Konstanz

or by e-mail to *oliver.schnuerer [at] uni-konstanz.de*.  
See *<http://www.math.uni-konstanz.de/~schnuere/>* for a *pgp-key*.

All applications received before 21.01.2019 will be considered.
